

MT.COLLECT

24/7 sales & collect module

Say hello to the MT.Collect – a parcel box designed exclusively for pharmacies, a new Meditech product tailored to meet the needs of both large and small pharmacies.

The device expands your pharmacy services outside office hours. Click & collect, sales on the spot and reservation pick-up is now possible 24/7 via our MT.Collect.

The box is a stand-alone module (no pharmacy robot connection needed) and can be placed wherever suitable (outside or inside). The MT.Collect can be combined with extra locker modules for more capacity and with our sales & collect module MT.MATIC SLIM for a complete patient service.

YOUR ADVANTAGES

ON-CALL DUTY

Guarantee your on-call duty with safe and effortless dispensing of products to your patient.

FREE SALE OF PRODUCTS

The sale of all over-the-counter products directly to your patient via our MT.Collect.

CLICK & COLLECT POINT

Collection of all products sold online from your website or e-commerce platform.

RESERVATION PICK-UPS

Your patients can order or reserve products/preparations online or in the pharmacy and pick them up whenever they want.

Combine one Main module (MT.Matic Slim or MT.Collect Mothermodule) with one or more MT.Collect Daughtermodules and add products like Covid tests, baby milk, pregnancy tests... and reservations for the patient to pick up.
